

Abhijith

Software Developer (AWS Certified Cloud Practitioner)

abhijithr962@gmail.com | +91-9538035943 | linkedin.com/in/abhijith962 | github.com/abhijith107

Professional Summary

Software Developer with 2 years of experience building and operating production systems on AWS and on-premise environments. Specializing in **Django / Django REST Framework** based **REST API** development, robust **database design**, and **CI/CD automation** using Jenkins. Hands-on with **Docker**, infrastructure security, and system observability. Experienced in **AI/LLM integration** and cloud-native deployments. **AWS Certified Cloud Practitioner** with proven delivery of secure, scalable solutions.

Education

B.E. Computer Science, Cambridge Institute of Technology

Aug 2019 – Aug 2023

Technologies & Skills

Languages	Python, C, C++
Backend & Frameworks	Django, Django REST Framework, REST APIs, Celery
Cloud Platforms	AWS (EC2, S3, RDS, IAM, VPC, CloudWatch, Route 53, Lambda)
Containers & Orchestration	Docker, Kubernetes, Helm
CI/CD & Automation	Jenkins, Git, Bash scripting
Security & Quality	SonarQube, Trivy, OWASP Dependency-Check
Databases & Search	SQL, Redis, Elasticsearch
Observability	Prometheus, Grafana
Operating Systems	Linux, Windows
AI/ML	LangChain, RAG, ChromaDB

Experience

Software Developer

Feb 2024 – Present

Innefu Labs Pvt. Ltd. – CENCOPS (Chandigarh Police)

- Designed **Django REST Framework** backend supporting **multi-terabyte file uploads** using **Celery** for background processing, file chunking, and automated labeling.
- Built **ETL pipeline** processing **1M+ API responses** and streaming data into **Elasticsearch** for real-time analytics and investigative dashboards.
- Implemented **Jenkins CI/CD pipelines** automating build, test, and deployment processes, **reducing manual deployment effort by 60%**.
- Containerized services with **Docker** and optimized performance for large-scale file transfers using asynchronous task execution.
- Managed **AWS production environment**: configured **Nginx** reverse proxy, domain routing, and **Certbot SSL** for secure HTTPS access.

Software Developer Intern

Sept 2022 – Feb 2023

Samsung Prism

- Developed multilingual chatbot using **Python**, **RASA**, and **spaCy**, achieving **4/5 user satisfaction**.
- Improved **NLP intent recognition accuracy by 20%** through model fine-tuning.

Key Projects

KanoonSarathi.AI – Legal AI Assistant

- Built backend using **LangChain**, **RAG**, **Gemini LLM**, and **ChromaDB** for real-time legal document retrieval.
- Deployed on **Kubernetes** using **Helm charts** with **Prometheus** and **Grafana** observability.

DevSecOps CI/CD Pipeline

- Implemented security scanning in CI/CD using **SonarQube**, **Trivy**, and **OWASP Dependency-Check**.
- Standardized **Docker** builds and **Jenkins** orchestration for consistent deployments.

Recognition

- Awarded by the **Director General of Chandigarh Police** for secure case management system delivery.
- **AWS Certified Cloud Practitioner**
